### The Miracle of Liquid Life

Ron Ameral and Robert Sotelo had been friends and business associates for years. Two common things they shared -- a desire for good health and a hatred for taking pills.

It was no secret to Ron and Bob that traditional medicine failed miserably in the areas of disease management and prevention. In fact, most people had come to accept chronic illness as normal, despite mounting evidence that much of it was preventable.

When Surgeon General C. Everett Koop, in his Report on Nutrition and Health, pointed out that "dietary imbalances" were the leading preventable contributors of premature death in the United States, Ron and Bob decided to take action.

Armed with the knowledge that proper nutrition could ward off chronic illness and aging, they set out to find a way to

Increased absorption. Works faster, lasts longer than capsules or tablets. Easy to control dosage. Convenient to take anytime, anywhere.

After using the products for six months, Ron and Bob began to share them with relatives and friends. The friends and relatives came back again and again praising the product's outstanding benefits.

"We decided to share our products with the world," said Ameral. "Our goal is to educate the public that the liquid form of supplements is far superior to solid forms. Liquid Life provides a nutritional arsenal that can help everyone be vigorous, strong, and full of life."

Today, Liquid Life's complex standardized molecular matrixing formulas are blended in a hi-tech plant using only the finest ingredients. Quality is given top priority.

"Our mission is to bring healthy living to all human beings with the highest quality, most effective liquid supplements in the world," said Sotelo. "With appropriate and timely intervention, the downward spiral associated with aging and disease can be prevented."

Today, calls pour in from around the world praising the miracles of Liquid Life. Both Bob and Ron agree, "There is no greater feeling than to be able to do good things for good people."

protect their loved ones and themselves from the ravages of time and disease.

They began a quest for knowledge in medical libraries and institutions throughout the world. To their astonishment, they discovered that as tablets, capsules or gels traveled through the digestive system, much of their nutritional value was lost before reaching the bloodstream. The human body could, however, be given natural herbs, minerals and other supplements in a liquid form which would provide fast and far superior assimilation than the pills.

Ron and Bob began to search out and test all the liquid supplements available on the market. They took the products to laboratories and had them analyzed. They tested the products on themselves. None could meet the standards that they wanted for their families.

Determined, they hired some of the foremost chemists and liquid supplement experts in the world and brought them together in secret (now almost legendary) meetings. After extensive research, the elite group developed the most advanced liquid nutritional formulas in existence. To assure quality and superior activity, they searched the world for the finest ingredients, sparing no expense. The results were beyond fantastic!

## Miracle From Paradise

**A** *Miracle from Paradise* is only one of the many extraordinary praises being used to describe the amazing Hawaiian Liquid Noni™ juice. In the Pacific Islands, Noni is the most commonly used medicinal plant prior to modern medicine. For thousands of years, Hawaiians and Polynesians have used the Noni fruit for internal cleansing, skin problems, high blood pressure, chest infections, mouth and gum disorders, diabetes, cancer, heart disease, fighting infection and rejuvenating health.

### Scientific Research on Noni Fruit

Scientists have studied the beneficial claims of the Noni fruit for many years. Significant medical research has been amassed substantiating the claims of the Island healers.

In separate studies, Noni was shown to have a significant impact on arresting the activity of implanted pre-cancerous cells when compared with other medicinal plant compounds. Research also supports that the Noni fruit appears to retard tumor growth by stimulating the immune system. One laboratory study revealed Noni was effective against nine different types of bacteria. Another reported the juice had a high content of a substantially documented hypertensive agent.

### The Miracle of Noni Fruit

Hawaiian Noni was used by American troops during World War II and has been approved by the United States Government since that time.

Dr. Ralph Heinicke, a renowned biochemist, has researched the active compound of the Noni fruit for many years. He discovered that the fruit contains an alkaloid precursor to a vital human compound called xeronine. Without xeronine, life would cease.

Disease, stress, anger, trauma and injury can lower xeronine levels in the body, thus causing xeronine deficit. Dr. Heinicke's research indicates that supplementing the body with Noni fruit provides a safe and effective way to increase xeronine levels, which exert a crucial influence on cellular homeostasis or cell health and protection.

### The Power of Hawaiian Liquid Noni™

Throughout tropical regions, virtually every part of the Noni fruit is used to treat disease or injury.

So why, you might wonder, has this product never been put on the market before in the United States?

The Noni fruit has a pungent smell and in its natural ripe form, it tastes simply horrible. That is, until Liquid Life made Noni taste good! Liquid Life has made their Hawaiian Noni tasty by adding pineapple flavoring to their formula.

In addition, ActiVin™ grape seed extract makes the Liquid Life product significantly more potent as an antioxidant than vitamins C, E and Beta-carotene.

### The French Paradox

Scientists have long been intrigued by the phenomenon known as the French paradox: the French diet is laden with saturated fat and cholesterol, yet the French have the lowest rate of heart disease - nearly half that of the United States. What's their secret? Medical researchers say the answer is in the wine they drink. The grape seed extracts found in wine contain powerful antioxidants known for their ability to help the body maintain a healthy natural defense system, capillary integrity and cellular and visual health.

Liquid Life's Hawaiian Noni contains ActiVin™, the only grape seed extract product produced by the exclusive, patent-pending ActiPure™ process. You receive the same powerful anti-oxidants found in wine, without the harmful effects of alcohol.

News about ActiVin™ has reached millions of Americans via television, radio and magazine articles. The powers of ActiVin™ were recently aired on PBS, The Learning Channel and as a news segment on American Medical Review hosted by actor Charleton Heston. Print ads promoting ActiVin™ have appeared in major health and consumer publications, including *Health*, *Prevention* and *Newsweek*.

## The Secret of Losing Weight While You Sleep!

### Burn Fat - Lose Inches Naturally

Liquid Patch™ is the revolutionary all-natural weight loss product that is sweeping the nation!

Liquid Patch™ is made up of a unique liquid dietary formula containing Collamin™, Fucus Vesiculosus, Calcium Pyruvate and Methylsulfonylmethane. This powerful formula of cutting edge nutritional technology provides you with maximum fat burning and weight loss. All you have to do is take 1 tablespoon before bedtime to burn fat and lose weight while sleeping.

### Cutting Edge Weight Control

Collamin™ (collagen and minerals) is a 100% natural liquid food supplement designed to help your body create lean muscle tissue while it reduces your undesirable fat.

Fucus Vesiculosus is a kelp-like brown seaweed found in the Atlantic coasts of Norway, Ireland and Brittany. This rich, potent plant is high in iodine and contains virtually every mineral known to man. In England, the Medicines Control Agency identifies Fucus Vesiculosus as an orally administered herbal medicine with clinical claims in the treatment of obesity. It is a safe and healthy product which helps to increase your metabolism so your body burns current fat and puts limits on future storage.

Calcium Pyruvate, often referred to as the "Body Builder in a Bottle," has been proven in clinical studies to increase muscle without exercise.

Methylsulfonylmethane (MSM) is a form of organic sulfur found in meat, fruit, vegetables and dairy products. MSM is found in every living cell. It provides the flexible bond between the proteins which make up the tissue in our bodies.

MSM is necessary for collagen synthesis. It prevents cells from becoming rigid. MSM softens tissue (the beauty mineral), and aids in the promotion of healthy skin, hair and nails.

Bioperine® is the new phytonutrient ingredient that will change the way your body looks at supplements. Scientific research has determined that it's not what you eat that counts - it's what your body absorbs. Bioperine® significantly improves the absorption of supplements for maximum weight loss.

Liquid Patch™ provides a superior weight loss punch no other product delivers! And it comes with a product "guarantee of satisfaction" backing up the facts!

### Take One Tablespoon Before Bedtime and Lose Weight While You Sleep.

### How Does It Work?

The first 45 to 90 minutes of sleep are a period of productivity and repair in the body. One tablespoon of Liquid Patch™, when taken on an empty stomach with an 8-ounce glass of water just before you go to sleep, fuels and feeds the repair process.

The only requirement is that you do not eat any food for three hours prior to sleep. No other behavioral modification is necessary.

Most diets deprive the body of calories.

While this may lead to rapid weight loss, it also results in the loss of muscle mass. We want muscle since it is the mechanism that burns the calories we consume.

Unless the calories we intake are burned up by the body's muscles, they are stored by the body as fat. The more muscle mass we have, the more calories that will be burned up by those muscles so they won't turn into fat.

In most diets, muscle mass is greatly sacrificed for weight loss. The building of muscle encourages weight reduction which results in the loss of inches as well as pounds.

The results of Liquid Patch™ will differ in each individual. Some will experience noticeable results within the first week. Some will maintain a slow steady weight loss over a period of months. Most everyone will be aware of lost inches.

You'll find friends saying "You look different. Are you losing weight?" This will provide you with the perfect opportunity to introduce them to the miracles of Liquid Life.

#### Burn The Fat

Your body can do three things with consumed calories:

- Use them to meet the body's daily energy needs
- Store them for future energy
- Burn them by special cells of the body known as Brown Adipose Tissue, or BAT. This latter process is called Thermogenesis, meaning the generation of heat. Thermogenesis is a normal physiological process, just as digestion is. It works along with the metabolic process, yet they are different.

The purpose of BAT cells is to burn up the calories your body does not need. Fat buildup occurs primarily when the BAT cells are not working properly or being actively stimulated. The body is then forced to store the excess calories as fat. In overweight people, BAT thermogenesis is generally absent or greatly reduced.

Tri-Thin's complete system works together to effectively activate your dormant BAT fat burning process, increase energy and suppress appetite. In addition, the three combined products work together to break down cellulite, burn stored fat, and increase the important digestive process. The Tri-Thin for Life program is available exclusively from Liquid Life.

### The Benefits of Thermogenic Weight Loss

### LIQUA CELL™ Immune booster

In today's fast pace of life it is easy for our bodies to become stressed and our immune system to become run down. Liqua Cell is designed to boost our body's immune system with remarkable ingredients such as Echinacea, Siberian Ginseng, Licorice Root,

Lapacho (Pau d'arco), Gotu Kola and Cats Claw. Siberian Ginseng, known as the "King of Herbs," is an excellent adaptogen that works best when the body is under chemical or physical stress. Licorice Root is an herb which has been used for many years for medicinal purposes. It provides excellent anti-inflammatory properties which makes it useful in treating coughs and congestion. ### LIQUID ROCK™ Perfected by Nature Over Millions of Years

What makes Liquid Rock unique? Liquid Rock's minerals come from once living organisms that have been bound by nature to an acid-enzyme bio-nutrient and mineral combination of optimal structure. The human

body requires a balanced combination of minerals for proper assimilation. The assimilation of one mineral may be dependent upon another. While scientific formulas try to balance the better known nutrients, those minerals not fully understood but essential in nature may be left out. The minerals in Liquid Rock are in unique proportions combined by nature and involve a blending process which has taken millions of years. Liquid Rock provides over 70 different elements in one highly assimilable form that nourishes the body and helps to correct deficiencies. Liquid Rock is nature's best source of protection in the prevention of disease.

### The Missing Link in Nutrition

The alarming fact is that fruits and vegetables grown on American lands no longer contain the minerals needed to sustain life. The best assurance against disease and degeneration is to obtain minerals in a supplement form. (Senate Document No. 264)

## JOINT PLUS™ The Arthritis, Osteoporosis & Silica Link

Do you ache? Recent studies document that more than 50% of seniors, age 65 and older, suffer from joint pain similar to arthritis. Arthritis afflicts more than 10% of the population of the United States. Billions of dollars are spent yearly on treatments and medication. Many American women are familiar with the disastrous consequences of osteoporosis. They fear for their own health and worry that someone they love will be stricken. Possible causes of arthritis, osteoporosis and other similar ailments include injury, nutritional or metabolic deficiencies, and disease. Yet, common to all of these causes is a silica deficiency. Our bodies are made up of billions of cells, and there is a vital link between healthy cells and healthy people. Healthy cells are damaged by lack of silica, and the impairment becomes clearly visible only after prolonged periods of time. Reversal of such damage may not be achieved instantaneously; treatment is required for a substantial period of time in order to restore cellular integrity. Those who are health minded will be interested to learn that major calcium benefits are best boosted by vegetal silica and not from calcium.

## DR. SILVER™ Nature's Antibiotic

Medical journals from around the world hail colloidal silver as a powerful wide-spectrum antibiotic that disables the enzyme that all one-celled bacteria, fungi and viruses use for their oxygen metabolism, causing them to suffocate in six minutes or less upon contact. Most prescription antibiotics kill only a few different disease-causing organisms, but colloidal silver is known to be successful in fighting over 650 diseases. The *British Medical Journal* also reports that it rapidly subdues inflammation and promotes rapid healing.
